

PATHWAYS TO POSSIBILITIES

The conference will provide content for professionals and family members who work/live with students with visual impairments and/or multiple disabilities including Dual Sensory Impairments /Deaf-Blindness. Next year we will add the field of hearing impairments. Our goal is to combine efforts from the different professional disciplines to provide a conference that creates deeper supports for those serving/ teaching/living with individuals (0-21) who are **differently abled** with unique combinations of sensory and cognitive challenges.
